Presented by

Nancy Villarreal

Purpose of a DD Form 2579

- The DD Form 2579 is a tool used to screen proposed acquisitions to insure:
  - Consideration has been afforded small and small disadvantaged business concerns
  - Small and small disadvantaged business concerns receive an equitable opportunity to participate in the proposed acquisition.
  - A subcontracting plan required by FAR 19.7 is included where appropriate.

When to prepare a DD Form 2579:

- For all procurement actions in excess of $10,000, including those set-aside for small business participation
- When a modification is needed that adds additional sites, categories or specialties to an established contract

When a DD Form 2579 is not required:

- For acquisitions not exceeding $10,000, the contract specialist is not required to prepare a DD Form 2579
- Delivery orders/task orders against established contracts do not require a DD Form 2579
  - *Standardized forms and/or pre-printed folders, approved by the contracting officer, are acceptable as documentation in the contract file when it is necessary to dissolve the automatic small business set-aside*
